OIL GAS & MINING

ANNUAL REPORT OF MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1953, as amended, and the General Rules as promulgated under the Utah Minerals Regulatory Program. An operator conducting mining operations under a Notice of Intention must file an annual operations and progress report (FORM MR-AR) with the Division.

GENE	CRAL INFORMATION
1.	Report Time Period: From (mo./yr.) 1/91 To (mo./yr.) 12/91
2.	DOGM File Number: M 1003 1007
3.	Mine Name: Tug
4.	Mineral(s) Mined: Gold & Silver
5.	Legal Description (Location of Lands Affected): SE /4 Section 9, Township 8N, Range 19W
	1/4, <u>Sw</u> 1/4, Section <u></u>
	1/4, NW 1/4, Section 15, Township 8N, Range 19 W
	1/4, NE 1/4, Section 16, Township 8N, Range 19 w
6.	Name of Operator or Company: Western States Minerals Corporation
7.	Permanent Address: 4975 Van Gordon Street Wheat Ridge, CO. 80033

8.	Company Representative (or designated operator):								
	Name: E.M. (Buzz) Gerick								
	Title: V.P. Operations								
	Address: 250 S. Rock Blvd., Suite 130								
	Phone: Reno, NV. 89502 (702) 856-3339								
	Please check if any of the above information has changed since previous year.								
II.	MINING AND RECLAMATION								
1.	Was the mine active during the past year? Yes ☐ No ☒								
2.	If active, how much ore or mineral was mined?								
3.	How much new or additional acreage was affected during past year? none								
4.	Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.								
5.	How much acreage was reclaimed during past year? None (see 6 below)								
6.	Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results. Please See the attached Form MR-EPR that disscribe.								
	the plugging of 94 abondoned drill holes during								
	1991. In addition, the holes drilled during 1991								
	were plugged as described on the attachment.								

- 7. What is the total disturbed acreage at years end? _approx. 10 acres or less
- 8. Briefly summarize mining and reclamation planned for the upcoming year.

No mining activity is planned during 1992. The only activity planned is exploration drilling, and that will be confined to existing disturbance. Upon completion of exploration drilling, the site disturbance will be reclaimed prior to year end 1992.

NOTE: Section III., "Additional Information" applies only to large mining operations.

III. ADDITIONAL INFORMATION

- 1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
- 2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

IV. SIGNATURE REQUIREMENT

I hereby certify that the foregoing is true and correct.

Name (Typed or Print):	E.M. (Buzz) Gerick

Division of Oil, Gas and Mining Attention: Anthony A. Gallegos 355 West North Temple 3 Triad Center, Suite 350 Salt Lake City, Utah 84180-1203

> RE: TUG Project, EXP/003/004 Box Elder Co. Utah

Dear Mr. Gallegos:

Attached is a completed Form MR-EPR for exploration conducted during 1991 on Western States Minerals Corporation's TUG Project. On May 23, 1991, a Notice of Intention was submitted to D.O.G.M. with twenty-one (21) proposed drill sites. Six of these sites were drilled during June 18-23, 1991. The remaining sites (15) may be drilled during 1992 to meet assessment obligations. Your office will be contacted prior to any additional drilling under this Notice.

As we discussed on June 7, 1991, a number of un-plugged drill holes were located during the field work for the Notice of Intention. To remedy this problem, a consultant was hired to check each drill location and plug any holes found open. July 27-29, the consultant plugged 94 holes using polyethylene plugs placed five feet deep and covered with cuttings. This plugging method was approved for the abandoned holes at TUG by D.O.G.M. in a letter dated August 25, 1989. Holes drilled in 1991 were plugged with cement while the drill rig was on the site.

If you have any questions, I may be reached at the above address or by phone at 702-738-8597.

Sincerely,

Western States Minerals Corporation Richard State

Richard Lisle

September 12, 1991

Mr. Richard Lisle District Geologist Western States Minerals Corporation P. O. Box 3094 Elko, Nevada 89801

Dear Mr. Lisle:

Re: Mineral Exploration Progress Report, Tug Project, E/003/004, Box Elder County, Utah

Thank you for your letter received by the Division August 21, 1991, regarding the status of the Tug Project exploration program, located in Section 9, T8N, R19W, SLBM, Box Elder County, Utah. Your letter meets the notice requirements of Rule R613-002 of the Utah Mined Land Reclamation Act of 1975, Title 40-8, et seq, Utah Code Annotated, 1953.

This information is good for the 1991-92 exploration season. If any of the exploration is not completed before November 30, 1992, you must inform the Division in writing, of the intention to carry work on the project over into the next field season.

The Division appreciates your efforts to account for and plug any drill holes form the previous years, in particular, the 94 holes which have now been plugged.

Please keep us apprised of the status of your operation, including any plans for further reclamation or exploration. Enclosed is another copy of our Mineral Exploration Progress Report (Form MR-EPR) to be filled out again and returned to the Division at the end of the next exploration year or when the project is completed. This form must be filed as required under rule R613-002-115.

P.06

Page 2 Western States Minerals Corp. E/003/004 September 12, 1991

Thank you for your cooperation. When in the area, a member of the Division staff will inspect the site. In reply, please refer to E/003/004.

Sincerely,

Anthony A. Gallegos Reclamation Engineer

April 8, 1992

Ms. Joelle Burns Minerals Secretary State of Utah Department of Natural Resources, DOGM 355 West North Temple 3 Triad Center, Suite 350 Salt Lake City, Utah 84180-1203

Dear Ms. Joelle Burns:

Please find attached form MR-AR for year 1991. This is in reference to the Tug Project, M/003/007.

Your letter of March 16, 1992 indicates that this is a 2nd request for submission of the 1991 Annual Report. Unfortunately, I have no record of receipt for the 1st request. In any event, I assume that this report is due sometime in January each year, until the site has been completely reclaimed and released.

Thank you for your understanding of this issue. Please call me if you have any further questions.

Sincerely,

E.M. (Buzz) Gerick

Vice President of Operations
